

Contents Checklist

Avoiding under insurance

Providing an accurate assessment of the cost of replacing all your personal possessions is often the most difficult aspect of arranging insurance for your home. Carrying out a review of all your possessions using the Contents Checklist, is a simple way to make sure that you have the correct amount of insurance in place. It is also important to remember that the cost of replacing items at today's prices may well have risen since you initially purchased them, and you should make an allowance for this.
